The other information does not include the separate financial statements and our auditor’s report thereon.

Our opinion on the separate financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the separate financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF THE DIRECTORS FOR THE SEPARATE FINANCIAL STATEMENTS

The directors are responsible for the preparation and fair presentation of the separate financial statements, in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, the directors are responsible for assessing the company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

## AUDITOR’S RESPONSIBILITIES FOR THE AUDIT OF THE SEPARATE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these separate financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the separate financial statements, including the disclosures, and whether the separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**1.3 BASIS OF PREPARATION**

*The separate annual financial statements have been prepared on the historical cost basis, unless stated otherwise.*

**1.4 ACCOUNTING POLICIES**

*The separate financial statements incorporate the following material accounting policies, which have been applied consistently to all periods presented in these separate financial statements unless stated otherwise.*

**1.4.1 Standards, amendments and interpretations effective in 2025**

*Refer to note 20.*

**1.4.2 Investments in subsidiaries and associates**

*Investments in subsidiaries and associates are stated at cost less any accumulated impairment losses.*

**1.4.3 Financial instruments**

**IFRS 9 Financial Instrument Accounting Policies**

*IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, FVOCI and FVTPL. The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.*

**1.4.3 Financial instruments (Continued)**

**Financial assets**

*The financial assets of the company are all classified and measured at amortised cost.*

*The company recognises a loss allowance for expected credit losses on all financial assets measured at amortised cost. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective assets.*

*The company measures the loss allowance at an amount equal to lifetime expected credit losses (lifetime ECL) when there has been a significant increase in credit risk since initial recognition. If the credit risk on a loan has not increased significantly since initial recognition, then the loss allowance for that asset is measured at 12 month expected credit losses (12 month ECL).*

*Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of an asset. In contrast, 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on an asset that are possible within 12 months after the reporting date.*

*In order to assess whether to apply lifetime ECL or 12 month ECL, in other words, whether or not there has been a significant increase in credit risk since initial recognition, the company considers whether there has been a significant increase in the risk of a default occurring since initial recognition rather than at evidence of an asset being credit impaired at the reporting date or of an actual default occurring.*

**Financial liabilities**

*The financial liabilities of the company are classified and measured at amortised cost.*

**1.4.4 Share capital and other reserves**

**Issued share capital**

*Issued share capital is stated in the statement of changes in equity at the amount of the proceeds received less directly attributable issue costs.*

**Treasury shares**

*Treasury shares represent the shares in Nu-World Holdings Limited that are held by controlled entities. These shares are held at cost and treated as a deduction against Group reserves.*

**1.4.5 Foreign currencies**

**Foreign currency transactions and balances**

*Transactions in foreign currencies are translated at the rate of exchange ruling on the transaction dates. Profits and losses on settlement of these amounts are included in profit or loss when they arise.*

*Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the rates of exchange ruling at the reporting date. Unrealised differences on monetary assets and liabilities are recognised in the SPLOCI in the period in which they occur, except when they relate to cash flow hedging activities in which case these profits and losses for the effective portion are recognised as other comprehensive income.*

*Non-monetary items carried at fair value, that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.*

**1.4.6 Income tax**

*Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in OCI.*

**Current tax**

*Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.*

**Deferred tax**

*Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes.*

*Deferred tax assets are recognised for unused tax losses and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.*

*Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.*

*The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.*

**1.4.7 Significant judgements and sources of estimation uncertainty**

*Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.*

*The company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.*

**Contingencies**

*By their nature, contingencies will only be resolved when one or more future events occur or fail to occur. The assessment of such contingencies inherently involves an exercise of significant judgement and estimates of the outcome of future events.*

**Income tax expense**

*Taxes are a matter of interpretation and subject to changes. The company makes use of tax experts to advise on all tax matters. Estimations of normal company tax and Capital Gains Tax ("CGT") are based on the advice and management's interpretation thereof.*

**Impairment of investments in subsidiaries**

*Determining whether the investments in subsidiaries is impaired requires an estimation of the value-in-use of the cash-generating units to which investments has been allocated. The value-in-use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate used in estimating if the investments are impaired.*

**1.4.8 Income**

*Interest is recognised in profit or loss using the effective interest rate method.*

*Dividends are recognised in profit or loss, when the Company's right to receive payment has been established.*

**1.4.10 Finance costs**

*Finance costs comprises interest paid and payable on borrowings, calculated using the effective interest rate method. Finance costs are recognised in profit or loss in the period in which they are incurred.*

**1.4.11 Employee benefits**

*Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the company has a present legal or constructive obligation to pay.*

An increase/decrease of 100 basis points (2023: 100 basis points) in interest rates at the reporting date would have affected profit before tax, by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for the prior year.

|                               |       |       |
|-------------------------------|-------|-------|
| Increase of 100 basis points  |       |       |

| Decrease of 100 basis points  |       |       |
| Increase in profit before tax | 387   | 383   |

The sensitivity analysis disclosed above is unrepresentative of the risk inherent because the year-end exposure does not reflect the exposure during the year.

**16.3 Foreign currency management**

**Foreign currency exposure**

Foreign exchange risk arises when individual Group entities enter into transactions denominated in a currency other than their functional currency. The Company's policy is, where possible, to allow entities to settle liabilities denominated in their functional currency using cash generated from their own operations in that currency. When entities have liabilities denominated in a currency other than their functional currency and lack sufficient reserves of that currency to settle them, cash already denominated in that currency will, where possible, be transferred from elsewhere within the Group.

The Company's exposure to foreign currency risk at reporting date was:

|                  |             |             |
|------------------|-------------|-------------|
| Loans receivable | 132 513 244 | 115 461 987 |
| Loans payable    | 220 229 820 | 206 719 337 |

**Foreign exchange sensitivity analysis**

The Company is primarily exposed to exchange rate fluctuations in relation to the US Dollar. An assessment of the Company's sensitivity to the Rand : Dollar exchange rate shows that should the Rand strengthen by 10% against the Dollar, the Company's profit before tax would decrease by R7,7 million (2024: R6,8 million). A 10% weakening of the Rand versus the Dollar would result in a profit of the same amount.

**16.4 Liquidity risk**

The company manages liquidity risk by the proper management of working capital and the continual monitoring of forecasts and actual cash flows. It is further managed by ensuring adequate banking facilities are available at all times to meet cash requirements.

**Liquidity risk profile**

The maturity profile of the financial liabilities is summarised as follows:

**0 – 12 months**

**Non-derivative**
